EACH SIDE ISSUES AN ADDRESS TO THE VOTERS

-NO OTHER CONTEST PROBABLE.

The chief interest in the primaries which will be held in the various Assembly districts of this county to day to elect delegates to the Republican State and district conventions will centre in the XIth Assembly District. The contest there between the machine and the anti machine forces will be fought out to the end with all the energy possible on both sides. All thought of compromise or settlement is abandoned, and the two tickets given below will be supported vigorously by their adherents. The machine element, of course, has the advantage.

Each side issued an appeal to the voters of the districk yesterday. address of the protestants, which was mailed to

the voters last night, is as follows:

To the Republican Voters of the XIth Assembly District. Gentlemen: We send you a ticket to be voted for at the primary to-morrow, Friday, April 15, at the Association headquarters, No. 107 West Thirty-fourth-st., between the hours of 9 a. m. and 9 p. m. We ask you to support it, because we believe that it is in the lest interests of the party that you do so. So much has been said and written garding the present contest in the district between the machine and those opposed to its unjust and tyrannical methods, that it is not our purpose to dwell at length upon it. We simply desire to call attention to one or two points upon which there may be, possibly, some misunderstanding.

The great objection that has been raised against the eform movement, which the enclosed ticket represents that the meeting of the association at which it was inprated was packed by "gangs of ruflians from all part The answer to that slanderous statement filed with the County Committee some time ago. s found in the enclosed circular, containing the names and ddresses of the Republicans of the district who attended that meeting. As will be seen, there are upwards of 200 of these, and when it is remembered that the headquarters can only hold about that number, the falsity of the alle-gation is easily apparent. We desire to repeat what we said before, that we have no sympathy with any unhave made our own. In view of the fact that the machine of the District depends to-day for its very existence upon the support and activity of Government employes, the ridiculous-ness of this contention is manifest. Not over half a dozen ness of this contention is manifest. Not over half a dozen officeholders at the outside have assisted in helpins forward the reform movement, while over thirty have done their best to retard its progress and maintain the present regime, and by methods that we certainly never will constenance. Finally, let us say that we have no other aim in view

than the broadening of the party movement in the Dis-trict, so that all Republicans who desire to participate in party work may be permitted to do so without fear or

The following letter was sent to this office yesterday : To the Editor of The Tribune.

Sir: In a letter furnished to the press by Mr. C. O'Conor this afternoon, and which has been widely published, this gentleman, after a series of statements and charges as to the last meeting of the XIth Assembly

District Republicans on March 22, interlarded with the use of such terms as "hirelings," etc., says: use of such terms as "hirelings," etc., says:

"These are the people who comprise the Milholland
element. You will readily understand that with the
lineaguration of such movements, or the supporters of such

people, no compromise is possible, nor in my judgment could any conference be held with them. They are beyond the pale of consideration, political or otherwise."

As our names have been associated with what is termed the Milholland movement, and as life-long Republicans. Milholland movement, and as life-long Republicans

and members of the district association for some years, we should like to know by what authority Mr. O'Conor pre-sumes to so allude to ourselves and others whose Republicanism is certainly as sincere as his own, we claim, and whose judgment, we think, without concert, would prevent elected, and no election in two other cases, and, must us or those who think with us from rushing into print the law in Newport, the two Republicans would hold us or those who think with us from rushing into print the law in Newport, the two official count, and with such rash, untruthful and silly statements as to over. We would repudiate as quickly as any honorable men any unlawful packing of any meeting with "hirelings" or others, or any disreputable methods whatsoever, and we stand ready to repudiate any unlawful action, if such were taken in the March 22d meeting and can be satisfactorily proven. Messra, O'Coner and Peabody know this, and dare not deep it. This is not the question, however, nor is Mr. Milholland's position of his actions the question. We respect Mr. Milholland for the gallant fight he has personally made against all manner of obstacles, and, to our knowledge, unmerited shader and abuse but we and others in the district have accepted places on the ticket put in the field by Mr. Milholland's more immediate followers and developed places on the ticket put in the field by Mr. Milholland's more immediate followers and the field by Mr. Milholland's more immediate followers and frends, simply because we have not and cannot inderse the methods of management of Mesers. O'Conor Prabody and their office-holding Heutenants in the district, because although neither office-holders nor office-seekers we are denied representation on the O'Conor-Peabody tickets, or admission to their caucuses, and lastly because we honestly and sincerely believe that the interests and the future of the Republican porty in the district are threatened by the continuance in power of the selfish, narrow and ignorant lolley pursued by the young men who have been in con-

We specified ourselves and we feel confident also for other men in the district whose Republicanism, character and reputation Mr. O'Conor has had the temerity to asperse. MICHIGAN FOR ALGER. DELEGATES TO MINNEAPOLIS GO UNINSTRUCTED, HOWEVER-THE NATIONAL ADMINIS-

TRATION STRONGLY INDORSED Detroit, April 14.-The Pepublicans of Michigan will present the name of Russell A. Alger to the Na-tional Convention at Minneapolis as the choice of the Welverine State for President of the United State This was definitely settled at to-day's convention, and the friends of Michigan's favorite son maintain that In the delegates selected General Alger has a following hope of success. The programme announced by General Alger last evening was adhered to in every detail, and after the adoption of a general resolution of in mention of Mr. Blaine's name to day was received with hilarious applause.

Ex-Congressman Edward P. Allen, of Ypsilanti, presided. He opened the convention with a stirring speech, When the selection of four delegates at large to the National Convention at Minneapolis was declared in order M. C. Burch, of Kent, nominated Delos A. Bloodgett, of Kent County, and H. O. Young, of Marquette County, said that he and his friends had come from the "rock-ribbed shores of Lake Superior, from its snow, its copper, its iron and its Republican majority, having travelled over 500 miles of railroad laid with American steel (applause), for the purpose of presenting the name of James M. Wilkin Marquette." J. G. Deckem, of Ottawa County, ex-Speaker of the House of Representatives, nominated Charles W. Wells, of Saginaw, and was followed by Philip T. Van Zile, of Detroit, who nominated D. Ferry, the seedsman. On motion of half a dozen delegates the nomination of these four men was made

At this functure ex-United States Senator Thor W. Pnlmer, now president of the National Commission of the World's Columbian Commission, was observed In the audience and invited to the stage by the chairman. His appearance was the signal for great ap-plause and immediately there were cries of "Palmer, Palmer." In response to the popular clamor for a speech President Palmer spoke. He said in part:

Brethren of the Great Republican Convention: Oh, for a thousand tongues to sing the Republican party's pealed You may be well aware that by the unwritten law of the World's Columbian Commission, officers and commissioners, I do not purpose to make any such. I am a Reput and always shall be, unless it swerves from the line that it has followed for the last thirty-eight years, at least emergency. I know very well that for the last thirty-eight years it has been in an emergency. (Great laughter). I know that when we have gone to the polis throughout the North united we have always carried the country. against narrowness and arrogance in party teadership, and as an honest, loyal member of the party, we ask that you give the mevement your individual support.

One word more it is contact to the first through through the first through the first th desires it or not—it cannot be helped. (Applause and laugh-ter) It is the inevitable logic of the occasion. We have had been an Administration for the last four years, which has been an Administration for the last four years, which has been an Administration for the last four years, which has been an Administration for the last four years, which has been an all of its acts and in all of its attrances expressive of the highest ideas of the Republican party and of the morals of this great country. (Applause.) There is nothing in the last four years that the most envisues of the most party and of the nothing in the last four years that the most envisues fresh charges against individuals connected with this movemont. We assume, however, that the Republicans of the
Xith Assembly District possess too much intelligence to be
deceived by election-day roorbacks.

For Electors at-Large, William McPherson, of Liv-Ingston County; ex-Congre-sman Jay A. Hubbell, of Houghton County; Benjamin Pritchard, of Allegany County, commonly known as "the man who captured Jeff Davis," and several others, were placed in nomination. The names of all except McPherson and Hubbell were subsequently withdrawn, and these were nominated by acclamation, one being from each of the electoral districts at large. Chairman Patton, of the Committee on Resolutions,

reported resolutions which were greeted with great applause, and which say in part :

PREPARING FOR THE SECOND ELECTION. RHODE ISLAND REPUBLICANS ANXIOUS TO IN-CREASE THEIR MAJORITY IN THE LOWER HOUSE.

Providence, April 14 (Special).-The adjourned election for a Senator and nine members of the lower House is to be held in this city to-morrow. The polls will be open from 5 o'clock in the morning until 7 o'clock at night. Both sides are making preparations to bring out the vote, although probably not more than three-fourths as many ballots will be cast as in the first election. The Republicans are naturally the most active, as they desire to clinch their victory and make It possible to elect a Republican Mayor in the Tall.

The Democrats were completely discouraged until the news came from Newport that Honey's Democratic Board of Aldermen had counted in Honey and his associates. Then their courage rose and the second edition of the election will be conducted with con

siderable animation. The result in Newport makes the Legislature stand: Republicans, 64; Democrats, 34. The Republican ma

Democrats by Democrats at Newport, Out of 3,700 votes cast the margin was so narrow that the shifting of twenty-live votes would change the result. The wardens' counts showed one Democrat elected, and no election in two other cases, and, under ward, while the Republican wards showed no material difference. The net result was a majority for Honey of nineteen, and for King of thirty-one. Although it was promised that the ballots would be preserved, they were immediately destroyed. The Republicans fally believe that the returns have been juggled, but the

The "Boss" also announced that he had telegraphed to Albany yesterday, informing his creatures Legislature that he was in favor of the repeal of the Central Park speedway act. Why he thought it was necessary to telegraph, when it is well known that he was in Albany twice this week, and was there while the repeal of the measure was attracting the attention of everybody at the State Capital, Mr. Croker did not explain. Many who heard of Mr. Croker's new-found anxiety for repeal predicted that his telegraphic messages would not be interpreted in Albany as he wished to have them understood in New-York.

In the election this week to fill the three remaining vacancies one Democrat received a majority and two Republicans obtained pluralities. In the official count last night the two remaining Democrats were counted in, the ballots being immediately destroyed, as before. A solid Democratic delegation, including the Mayor and two Aldermen, is thus returned to the Legislature.

These facts formed the basis of to night's discussion. It was recalled that in the ballot-stuffing case in Lincoin a year ago, the Supreme Court decided that the hasty destruction of the ballots was an evidence of fraud. Resolutions were adopted appointing a com-mittee of two from each ward to present the case to the General Assembly.

MR. HORR READY WITH HIS ANSWERS. TURNING THE TABLES ON DEMOCRATS IN A

TARIFF SPEECH AT MEDINA.

Medina, N. Y., April 14 (Special).-Por several weeks the forthcoming debate on the tariff between Mark D. Wilbur, of Brooklyn, for the Democrats, and R. G. Horr, of The New-York Tribune, for the Republicans, has been the lending topic here, and to-night Bent's Opera House was crowded, and his dreds re unable to obtain admission, so great an interandlence, embracing people of both political parties. There was great disappointment when the Democratic nanagers were obliged to announce that a dispatch had been received from Mr. Wilbur announcing that owing to Illness he would be unable to come. the illness was in a y manner caused by the recent news from Rhode Island the dispatch did not state. Several other free-trade orators were promptly telegraphed for by the local Democrats, but they seem to be feeling sick along about now, and there did not appear to be any exponent of tariffsmashing who felt well enough to face that sturdy defender of protection, ex-Congressman Horr.

Mr. Horr appeared early in the day, and was considerably disappointed that a forman worthy of his steel could not be found. NOT VACANCIES EXCUGH FOR CADETS.

Washington, April 14 (Special).-According to ex-

Isting law, cadets who complete the course at the Naval Academy are not assigned to the line, the Engineer Corps and the Marine Corps being the only corps in the Navy to which cadets can be assigned, until their final graduation after a two-years' cruise on a sen-going vessel. As June 30, the day on which the assignments to different corps are made, approaches, the cadets and their relatives and friends manifest great anxiety as to the number of vacancies which will exist for the present class of thirty-one. There are now only twenty one vacancies for the class, but as the disposition of the Navy Department is to secure as many bright youngsters as possible, it is quite probable that before June 30 the additional ten vacancies will exist, and the entire class of 1890 will procure commissions as ensigns, as istant engineers and second lieutenants.

THE BENDENG OF HEAVY ARMOR PLATES. Washington, April 14 (Special).-The Burcan of Ordnauce of the Navy Department is still considering the problem of bending the heavy armor-plates which will be used on the battleships now being constructed by the Cramps, in Philadelphia, and by the Union Iron Works, at van Francisco. The Bethlehem Company and Carnegle, Phipps & Co., the contractors for the armor-plates, have not the massive machinery necessary to shape the heavy plates to the precise envatures required, and the present disposition of the Navy Department is to modify its exactions in the matter. The armor-plates for the battle-hip Oregon portably favor the choice of European delegates to the and her class will be eighteen inches in thickness, and until the contractors have obtained greater experience and additional machinery the shaping or curvature of such plates will be limited. Eighteencurvature of such plates will be limited. Eighteen-inch plates are thought by experts to be the prac-ticable extreme of thickness, and manufacturers here, who less than two years ago had no experience with heavy armor-plates, but who are now almost ready to deliver such plates, will doubtless soon overcome the present inability to bend them.

DESTRUCTIVE HAILSTORM IN SOUTH CAROLINA. Columbia, S. C., April 14 (Special).—The town of Bennettsville was visited at 4 o'clock this after-K. J. Sansop, of this city, and the secretaries were noon by the most terrific hall storm that has ever

been known in this State. The cloud came from the northwest. The hallstones were two inches in dia meter and covered the ground to a depth of six inches. Birds, chickens and hogs were killed, and many glasses were broken. Men and horses were knocked down, vegetables and cotton were completely cut down, and incalculable injury is reported from cut down, an

THE NEED OF A MARINE BOARD.

HOW DEFECTS IN LIFE SAVING METHODS COULD BE REMEDIED.

PROVISIONS OF SENATOR FRYE'S BILL NOW PENDING-BENEFITS LIKELY TO BE DERIVED FROM IT.

[BY TELEGRAPH TO THE TLIGGER.] Washington, April 14.—Officials of the Life-Saving service are deeply interested in the experiments reestablishing communication between a ship in distress up their appliances. Under the law as it now stands the officials are powerless to do more than to express their interest and to labor for additional legislation under which they can act directly. "The scheme is a perfectly feasible one," said Super

intendent Kimball of the Life Saving Service, to a Tribune correspondent, "bt we can do nothing towards having it adopted, or forcing vessel owners to provide themselves with the new apparatus. Nearly every wreck-I might say every one-which occurs on the coast within range of the life-saving service, occurs with the wind driving on shore. To make a line fast to a vessel under such conditions, it must, of course, be fired in the teeth of the wind, which greatly retards its flight and diminishes the distance to which it might be thrown. Now, if the line could come from the ves-sel, it would have the force of the wind to aid in carry-ing it, and many wrecks which we cannot reach with appliances from the shore, would thereby be brought late connection with the life saving crews. Besides, in shooting a line from the shore, the crews have co paratively a small mark to strike, and often miss it; while from the ship, the whole beach line is a mark, and the line be landed anywhere.

"strangely enough," continued Mr. Kimball, "the present law does not require sailing vessels to carry any life-saying appliances whatever, being confined in its operations to steamboats, which are under the supervision of the Bureau of the Supervising Inspector-General of Steamboats. This discrimination is all the more remarkable in view of the fact that whereas steambouts carry, probably, ten times as many passengers as sailing vessels, the number of lives lost from uiling vessels is twice as great as from steamboat Maritime Conference, and one of the reports from the committees of that conference recommended the establishment by each government of a marine board, which should consider and recommend necessary legislation and thus remedy this and other defects in existing "In pursuance of that recommendation, Senator

Frye introduced in the List Congress a bill to establish such a board in the Treasury Department. The bill passed the Senate, but failed of consideration in the House. It has been reintroduced in this Congress, and in view of the fact that the operations of the Board would not cost a cent, except, possibly for stationery, the bill ought to become a law without oppo-The Board, as proposed, is to consist of Assistant Secretary of the Treasury, ex-officio chairman, the following ex-officio members: the chairspector-general of steam vessels, the supervising sur-geon-general of the Marine Hospital service, the general superintendent of the Life-Sav-ing service, the Commissioner of Navigation, the ing service, the Commissioner of Navigation, the superintendent of the Coast and Geodetic Survey, the Chief Hydrographers of the Navy and the Chief of the Division of of the Revenue Marine. The board is to meet quarterly for consultation and recommendation to the Secretary of the Treasury for presentation by him to Congress of any changes in existing laws, which may seem necessary for the protection of the interests of the Government and the benefit and improvement of the merchant marine, or for the relief of the merchant marine from any harsh or injurious laws operating to its detriment. Through the operations of such a board lestislation is likely to be obtained which will remedy the defect referred to with regard to life-saving appliances, and many others equally unfortunate.

SCANDAL IN A PRIMARY SCHOOL.

A FEMALE PRINCIPAL CHARGED WITH GRAVE OFFENCES.

The troubles which have been brewing for several eeks in the primary department of Grammar School No. 70, No. 207 East Seventy-fifth-st., came to a head yesterday in the recommendation for the removal of the principal, Mrs. Louise M. Galligan. The recommendation, which will be presented to the Board of Education next Wednesday, is signed by L. M. Hornthal, Richard Kelley, Jeremiah Fitzpatrick, Joseph Fettretch and W. Harris Roome, the trustees of the Nineteenth Ward, in which the school is situated, and G. F. Jackson, George H. Toop, and J. Fleischhauer, the school inspectors of the VIIth District. was not a dissenting voice among the trustees or the inspectors. The charges made against Mrs. Galligan are among the most serious that can be made against a principal. They include the four main charges incompetency, inefficiency, falsification of pay rolls and conduct unbecoming a teacher," according to one of the trustees who was seen by a Tribune reporter last evening. Every chance, it was said, had been given to Mrs.

Galligan to disprove the accusations made against her. Although she put in a general denial of all the charges, it was ineffective in the eyes of the trustees. For several weeks the investigation of the conduct of the principal has been going on. She has more than a score of teachers under her. Al-most every one of them was called before the trustees o give testimony, but not one, it was said last evening, had words of praise for Mrs. Galligan. On the con trary, they all complained of bad treatment, disrespect Among the facts brought out by the investigation was the startling one that Mrs. Galligan had not visited the class-rooms in her department to give instruction for several years, and that she had neglected her duties as principal in many ways. Mrs. Galligan has been a teacher in the public

schools for more than thirty years and is now about lifty years old. Her record, however, it is charged, has not been such as to inspire the trustees with confidence. In 1878, while principal of the primary department of Grammar School No. 70, charges were also brought against her, and an effort was made by some officers of the schools to secure her removal. The trustees, however, after thoroughly investigating the charges, decided that they were not sufficient to force her to give up her place. They adopted a series of retolutions, however, warning her to treat her teachers better, and to refrain from collecting money from the teachers for presents to extrustees, for flowers at funerals, etc.

There is little doubt, however, that Mrs. Galligan will be removed from her school by the Board. That can now be done by a two-thirds vote. It is possible, also, that Superintendent Jusper will revoke her license. There is great excitement in the school over the unfortunate affair. Mrs. Galligan lives in Woodsburg, L. L., and could not be seen last evening. some officers of the schools to secure her removal.

MR. ELAINE AND NEWFOUNDLAND. ist, John's, N. F., April 14.—"The Evening Telegram" says: In the course of the debate on the resolution introduced into the Assembly by Mr. Morine on Tuesday, Mr. Morine, during the absence of the Colonial secretary from his place in the House, said that Mr. Bond had led the country to befleve that the only concession given to Ameri-can fishermen was the right to purchase balt, whereas, as a matter of fact, he had bartered away the rights of Canadian fishermen. In support of this statement, the speaker quoted from a letter written by Sir Charles Tupper. Mr. Bond, on being informed of this charge, telegraphed to the Secretary of State of the United States respecting the matter, as follows: Morine, leader of the Opposition, has asserted in the

Legislature, upon the authority of Sir Charles Tupper, that you stated at the conference held with Tupper and Paunce. ote on April 2, 1891, that I had expressed the intention of fote on April 2, 1894, that I had expressed the intention of this Government to exclude Canadians from bait. I ap-preciate that this is pure fabrication on the part of Tupper, made with intention to influence the non-ratification of con-vention by Imperial Government; and I will thank you to tre me reply.

The following is given out as the reply received from

Mr. Blaine:

## CROSSING THE BRIDGE.

THE FEARFUL IMPULSE THAT SEIZES MANY PEOPLE.

Why Persons Sometimes Feel Like Jumping Into the Water and What It Indicates,

"I never cross Brooklyn Bridge without feeling an

impulse to jump off into the water below."

This apparently strange remark was made by a gentlenan a few evenings since to a party of ladies and genman a few evenings since to a party or manes and several tlemen with whom he was visiting. It seemed strange, but have you not felt the same wild impulse when passing the spot where various bridge jumpers have gone over? Of course, you controlled it, but did you ever strop to think what that impulse is? There is within everyone's mind of course, you controlled it, but did you ever stoop to tank what that impulse is! There is within everyone's mind at times a feeling of self-destruction. It is caused by a peculiar condition in which the mind may be at that time and a strange condition of the nervous system. The nerves cause all our pain, give us all our pleasure. When they are healthy we are happy; when they are disordered we are miserable. This is simple and it is true. Is it not also plain wherein the secret of happiness lies? It con-

This cannot be done, however, without assistance. The nerves need, must have, some aid, and fortunately science and discovery have found it. It is the preparation discovery cred, after years of experiment, by Professor Phelips, of Dartmouth College, known as Paine's celery Compound. It is beyond question the most wonderful preparation for feeding and sustaining the nerves known to the world. Doctors assert this, scientists admit it, and thousands of

Poctors assert this, scientists admit it, and thousands of people who have proven it in their own case amply condrm it. Its popularity is phenomenal.

It is a happy circumstance that this remedy is within the reach of any workingman's family, for it is not necessary to have a physician prescribe it, as all reputable druggists keep it for sale. With many it has become the standard family remedy, half a dozen bottles being purchased at a time, so that it may always be on hand when received.
